# About Me

---

## Professional Overview & Background

AI Engineer and Software Architect specializing in autonomous systems, machine learning, and innovative technology solutions.

My expertise spans the full spectrum of AI development, from research and prototyping to production deployment of large-scale systems. I thrive on complex challenges and am particularly drawn to projects involving autonomous agents, real-time systems, and innovative human-AI collaboration.

## Core Competencies

### AI & Machine Learning

Advanced ML systems, neural networks, autonomous agents

### Software Architecture

Scalable systems, microservices, cloud-native design

### Real-time Systems

High-performance computing, edge deployment, optimization

### Research & Innovation

Experimental AI, emerging technologies, R&D leadership

## Quick Facts

Location	Tasmania, Australia
Availability	Open to opportunities
Focus	AI & Autonomous Systems
Approach	Innovation-driven

## Areas of Interest

Autonomous Agents    Neural Networks    Distributed Systems    Edge Computing

Human-AI Interaction    Sustainable Technology
