About Me

Professional Overview & Background

AI Engineer and Software Architect specializing in autonomous systems, machine learning, and innovative technology solutions.

My expertise spans the full spectrum of AI development, from research and prototyping to production deployment of large-scale systems. I thrive on complex challenges and am particularly drawn to projects involving autonomous agents, real-time systems, and innovative human-AI collaboration.

Core Competencies

AI & Machine Learning

Advanced ML systems, neural networks, autonomous agents

Software Architecture

Scalable systems, microservices, cloud-native design

Real-time Systems

High-performance computing, edge deployment, optimization

Research & Innovation

Experimental AI, emerging technologies, R&D leadership

Quick Facts

Location	Tasmania, Australia
Availability	Open to opportunities
Focus	AI & Autonomous Systems
Approach	Innovation-driven

Areas of Interest

- Autonomous Agents
- Neural Networks
- Distributed Systems
- Edge Computing
- Human-AI Interaction
- Sustainable Technology
