👤 About Me

Professional Overview & Background

AI Engineer and Software Architect specializing in autonomous systems, machine learning, and innovative technology solutions.

My expertise spans the full spectrum of AI development, from research and prototyping to production deployment of large-scale systems. I thrive on complex challenges and am particularly drawn to projects involving autonomous agents, real-time systems, and innovative human-AI collaboration.

Core Competencies

🤖 **AI & Machine Learning**
Advanced ML systems, neural networks, autonomous agents

🏗️ **Software Architecture**
Scalable systems, microservices, cloud-native design

⚡ **Real-time Systems**
High-performance computing, edge deployment, optimization

🔬 **Research & Innovation**
Experimental AI, emerging technologies, R&D leadership

Quick Facts

Location	Tasmania, Australia
Availability	Open to opportunities
Focus	AI & Autonomous Systems
Approach	Innovation-driven

Areas of Interest

Autonomous Agents   Neural Networks   Distributed Systems

Edge Computing   Human-AI Interaction   Sustainable Technology

💼 Professional Experience

Career Journey & Key Roles

AI Engineer & Software Architect

Independent Consultant 2020 - Present
Specializing in autonomous systems, machine learning, and innovative AI solutions for complex technical challenges.
Developed advanced AI systems for autonomous decision-making
Architected scalable software solutions for real-time processing
Led research initiatives in human-AI collaboration
PythonTensorFlowPyTorchJavaScriptDockerKubernetes

🚀 Featured Projects

Notable Work & Contributions

TicketSmith
🔗 GitHub

Ecosystem-aware AI automation platform for Jira & Confluence with intelligent workflow optimization.

🏆 Achievements & Recognition

Awards, Certifications & Milestones

🏆

AI Innovation Excellence

Recognition for groundbreaking work in autonomous AI systems and human-machine collaboration.
2024

🚀

Open Source Contributor

Active contribution to various open-source projects in AI, automation, and developer tools.
2020-2024

🎯

Technical Leadership

Successfully led multiple high-impact technical projects from conception to deployment.
2021-2024
